Mrs. J. R. Miller is visiting friends in Rosetown this week.

Rev. Father Bowen, of Oyen, was a visitor in town on Monday.

Services will be held on Sunday next at Laughlin 11 a.m., at the home of Mr. W. Lawrence at 3:30 and Chinook at 7:30. The pastor, Rev. G. Elliott will conduct the services.

A splendid programme is being arranged for the Calgary Winter Carnival which commences January 17.

Mr. F. J. Whitlock of Oyen, who was en route for Drumheller, paid us a friendly call last Monday.

The annual meeting of the ratepayers of Chinook Consolidated School District will be held in the School on Saturday, Jan. 15, at 1:30 p.m.

Lorne Proudfoot,  
Sec.-Treas.

Miss Jessie Morrison and Mr. J. M. Bury, of Coltholme, left on Saturday for Calgary, where they will attend the Nazarene Bible School.

Mrs. M. J. Hewitt is spending a few days in Oyen visiting Mrs. Fred Lake.

W. L. Chapman and Chas. Ray were visitors in Hanna this week.

The Cereal Village Council are having constructed four large cisterns to be used as reservoirs for fire protection.

The latest report from the Rosetown 'Spiel' is, that the Chinook rink is in the "fours" in one competition.

Mr. and Mrs. J. N. Key left last week for Rowley, Alta., where they will spend a short vacation.

Over a hundred men are being employed at the present time in laying new and heavier rails on the main line of the Canadian National Railway. They are making their headquarters at Al-sask.

The Kindersley Curling Club have sent a challenge in for the Beaver Cup.

### WEDDING BELLS

Haggerty-Thompson

A quiet wedding was solemnized at the Knox Manse, Saskatoon on Monday, Jan. 10, when the Rev. Wylie C. Clarke performed the ceremony uniting Miss Minerva Lucella Thompson, of Kinderston, Sask., and Mr. Joseph John Haggerty, of Big Spring, Alta.

### Village Council

A joint meeting of the old and new Councillors took place on Wednesday, Jan. 5. All unfinished business for 1920 was dealt with and the Treasurer's report received and adopted.

Then, the Secretary acting as chairman pro tem, the new council was called to order for business. Mr. Boyer was nominated for Reeve again for 1921.

A hearty vote of thanks was tendered the retiring Councillor, Mr. Robinson for his work during the past year.

The Reeve appointed Councillor Meade to superintend the Village lights and wells, and Councillor Gilbertson, the sidewalks and streets.

The Secretary was re-engaged for 1921 at the same salary.

Meetings of the Council are to be held on the second Thursday of the month during the winter.

### Business Change

Mr. J. M. Montgomery, of Prince Edward Island, arrived in town last week and purchased the general merchandise of Mr. H. C. Briggishaw, general merchant of Chinook. Mr. Montgomery was accompanied by Mr. Matt Richardson, of Rocky Mountain House, who will assist in the store. Mr. Richardson is no stranger in this district, having assisted Mr. Briggishaw in the store about two years ago. During that time "Matt" made many friends who are glad to see him back in town.

### Chinook Curlers Bring Back the Beaver Cup

Last week two rinks from Chinook went down to Oyen to play for the Beaver cup, which has been in the Oyen Club for the last year. The well known Rennie rink was drawn against Chas. L. Dunford's, and after a hard fought battle finished up with a tie of 11-11. Campbell's rink came up against Lees and all through the game prove too much for the Oyenites and finally won by a score of 16-10 in favor of the Chinook boys.

# Canada's Buffalo Herd Is Now the Largest On the Continent

In a general way it is known that the Dominion of Canada purchased the Michipicou herd of the Hudson Bay Company some years ago, and used it as a basis for the Canadian national herd at Wainwright, Alberta, says the Saturday Evening Post. That herd today is the largest and best on the North American Continent. It lives practically on open range and comprises this year forty-three hundred and thirty-five head. In all, Alberta has forty-five hundred and forty-three buffalo preserved against the rainy days. There is an estimate regarding the more or less mythical wood-bison herd of Athabasca, placing the number at five hundred head. This herd is more or less an uncertain quantity, as it ranges a remote and little-known portion of the far north. In all of Canada there are, according to the best obtainable figures, and as given by the latest society, five thousand and eighty head

of the American bison. In Australia, another far-off appanage of the crown of Great Britain, three specimens have been imported. The holdovers of Europe, especially of Great Britain, have done much for this species. The herd of the Duke of Bedford has forty-eight individuals, today, and in London there are still three specimens left alive. Belgium owns one bull, Germany two head of buffalo, Holland seven head. This is all for Europe of our species, the American bison. In Uruguay, South America, there are two head. The total footing for the world's census makes it five hundred and ninety buffalo alive in North America and gives a total of eighty-four hundred and seventy-three bison now alive on the North American Continent. The total for the world is eighty-five hundred and thirty-five, and there were thirteen hundred calves born last year.

## To Harness The Tides

Huge Scheme Projected in England  
That May Furnish Power Greater  
Than Niagara.

The British Ministry of Transport has just made public a scheme to harness the tidal waters of the River Severn at a cost of £30,000,000 and to erect a power plant greater than that of Niagara Falls. The Severn divides England from Wales.

The project is an outcome of the efforts of Sir Alexander Gibb, chief engineer of ports construction in the British army during the war and builder of the great naval dockyard at Rosyth. It is calculated that the power plant could produce 1,000,000 horse-power at its peak load capacity, and that it would save 3,000,000 to 4,000,000 tons of coal a year. It is claimed that it would revolutionize the whole industry of the west of England, and even supply London with cheap electric current.

A concrete dam would be placed across the river, creating a lock, 27 square miles in extent, into which vessels could pass through a channel. It is estimated that the undertaking would provide work for 250,000 men for seven years.

In the spring tides the Severn rises 38 feet, the second highest tide after the Bay of Fundy. The fact that tidal waters have never yet been used for the generation of electricity on such a vast scale, coupled with the big estimated cost of the

## A Prominent Westerner

PATRICK BURNS.

Patrick Burns, of Calgary, one of the best known and most highly respected business men of Western Canada.

Mr. Burns, make engineering experts cautious in expressing views as to its feasibility.

The Times editorially refers to the project as "somewhat flamboyant." The consent of parliament must be obtained before the scheme can be put into operation.

# Diversified Farming Advocated for West by Agricultural Experts

The necessity of more diversified and more conservative forms of farming so as to increase the yield per acre rather than increasing the acreage, was the keynote of the discussion on Western Canada's present economic problems at the recent conference of Agonomists held in Edmonton.

H. A. Craig, deputy minister of agriculture for Alberta, who opened the discussion and outlined the present economic conditions under which the farmers are working, suggested a more diversified form of farming than had been practiced during the past five or six years. He pointed out that things have come to that stage where it is no longer possible to wheat farm alone, depending upon the grocery store for the remainder of the household supplies.

W. H. Fairfield, superintendent of the Dominion Experimental Farm, Lethbridge, stated that as he saw it, the solution would be not only better farming but more cautious farming.

Increased acreage, he said, should not be encouraged as much as increasing the productivity of the land now under cultivation.

Professor M. Champlin, University of Saskatchewan, advocated more diversified agriculture. "We must stick to the fundamental principles of mixed farming, and work with the idea

of permanency in view. What we want is less area and more grown on it."

S. A. Hopkins, of Ottawa, said "we should be reluctant to offer advice to farmers at this time, and we must remember that the business men are up against the same problem. It should always be kept in mind that we cannot force the markets. If one could determine six months ahead what the price of wheat would be, then we could lay our plans ahead of time and advise farmers what steps to take. However, for myself, further than advocating caution, I would let the farmer gamble for himself. We might offer a few good general suggestions but if our advice does not prove sound, the farmers will surely come back at us."

Professor G. H. Carter, advocated a conference of representatives of the various people that were involved, the grain farmer, the livestock men, the bankers, the economist and the agonomist get together and study present urgent problems with the object in view to work out a solution that would be to the benefit of all concerned.

Professor Carter's suggestion was a very welcome one to the convention and it was felt that steps should be taken to arrange for such a conference in the near future. No definite action, however, was taken.

## Alberta's Forest Fires

During Past Season Province Suffered  
Rather Lightly.

Statistics compiled at the office of the forestry branch show that Alberta suffered rather lightly through forest fires during the past season. The situation may be summarized as follows: There were reported 421 fires; the expenditure for fighting them was \$55,000 and the estimated damage is approximately \$66,000. This does not include forest fires occurring in Dominion parks. Of the 421 fires 221 were caused by railways, 62 by campers, 58 by settlers, and 60 by various miscellaneous agencies such as lightning, smokers, sawmills, etc. In the case of 20 of these fires it was impossible to determine the cost.

It is interesting to note that only 295 fires were reported during the summer of 1919, but the damage to timber and cost of fire fighting were many times higher than during the season just passed. Of the 295 fires in 1919, 225 were caused by railways and 15 by campers. The figures show a rather alarming increase in the number of fires started by campers and those people who make use of the forest reserves for camping and fishing trips are earnestly warned to be extra every caution to prevent the escape of fire. Over half of the damage this year and almost half of the burned over area was caused by one spreading camp fire.

## Population of B.C.

British Columbia Is Now Claiming  
555,536 Inhabitants.

British Columbia's population is 555,536 according to Dr. Henry Young, secretary of the Provincial Board of Health, who has made public his report for 1920. This total includes 25,659 Indians. The total population is an increase of 87,000 or a little more than 20 per cent. over the previous year.

The death rate for the whole province last year was 9.22, which is less than half the birth rate, which was 17.56. The total births for the year was 10,002 and the number of deaths 4,430. Marriages numbered 4,650, an increase over the previous year of 1,821. In 1919 there were 6,696 deaths, due largely to the influenza epidemic, while the birth rate was 15.83 per 1,000 of population, in that year.

## Irrigating a Million Acres

Stated That Federal Government  
May Undertake Huge Scheme.

Surveys to ascertain the possibility of a project to irrigate a million acres of land in Central Alberta and Saskatchewan will probably be undertaken by the Dominion Government during 1921. The area covered by this vast project extends from the neighborhood of Youngstown, north of Red Deer River in Alberta, almost to the city of Saskatoon.

The water would be taken from the North Saskatchewan River and stored in a large reservoir at Buffalo Lake, in Alberta, from where it would be distributed over a large area extending south and east to Saskatchewan. William Pearce and other prominent irrigationists drew attention to the advantage of the scheme some time ago and strongly recommended to the Dominion Government that surveys be undertaken.

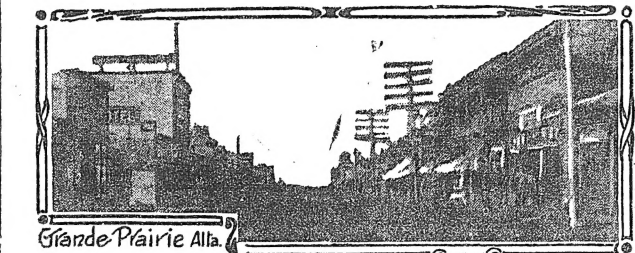

W. N. U. 1350

## An Unattractive Place

The population of Petrograd has declined 71 per cent., according to the latest figures. Or, in other words, 29 per cent. of the population couldn't get away. From the Kansas City Star.

Don't forget that a shallow brain often operates a fluent tongue.

# PIONEERS IN PEACE RIVER DISTRICT

Grande Prairie Alta.

One August morning ten years ago, a Dominion Cabinet Minister at Ottawa interrupted for brief part of a day the normal course of business to unfold to me, a sympathetic, travelling Englishman, his vision of the New North West.

He had just returned from a long tour right through the Peace River district, up the Mackenzie Basin to Fort McPherson.

"We have no wish," said he with emphasis, "to induce settlers to enter as yet the new 'Frontier Land'—this, remember, was in 1910—"I speak of the future only. But I am satisfied that when the present public lands are all disposed of, then this back country will be taken up, because it will pay people better to secure land there than to pay the price that will be asked for the other."

"Much work has to be done first, however. Rivers have to be made navigable and the land has to be surveyed. My journey was made to ascertain if these undertakings would be justified. And my verdict is yes. Though this land lies north, it is not appreciably colder than the southern portions of the province. At Edmonton the climate is as favorable as at the international boundary, owing to the lower altitude; and for the same reason, together with other contributory conditions, a couple of hundred miles further up country makes little difference."

In 1914 came the railway gang, and in 1916, when its work was done, in pressed the pioneers. This year I have followed in their tracks and, reflecting on what I have seen, I endorse this wisdom.

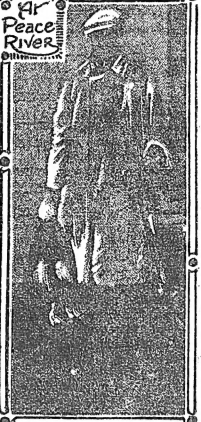

First, the country is of uncommon character—great tracts of prairie, with patches of light bush, set among low purple hills, and intersected by belts of timber and by fine rivers and streams. Park-like is the descriptive term that springs to one's pen. Rose-douglas everywhere by millions, and sent the air. Lilies challenge them for grace and glow. A thousand tinted grasses add soft undertones, as they ripple in the breeze. Rarely have I been so moved with visions of a country's future as when our automobile pounded along the ninety-mile trail from Peace River Crossing to Spirit River. The naked prairies of the south have their charm—at least under summer skies; but here is a country where the eye is rested and the soul inspired, while still the pocket fills.

And the pocket does fill, sure! In some instances it puzzles one a little how. It is not to be explained on the theory of taking in each other's washing, though there is "taking in" of some sort, if the unwary stranger suffers it. But where the occupation is farming the mystery is explained. Nourish store or east have I seen better crops, and last year this district prospered when others nearly failed. One man gleaned 120 bushels of oats to the acre, and 48 bushels of wheat. He is located about twelve miles above the crossing and floats his grain down thereto in scows, freightage ten cents per bushel; and with a stream running nine miles an hour he doesn't lose much time.

Just north of Dunvegan, on the 14th July, I plucked oats, four feet high and upwards by my pocket measure. And when, ripe, timothy and indeed all kinds of hay, were luxuriant. A man may be no agriculturist or authority on soils, but even a fool can't mistake the evidence of growing crops.

The pioneers, I said, are pressing in; and more than pioneers. Wise men, not merely from the East, but also from the South and West, are nosing around to pick up the "snaps" and secure their stake in what surely gives the unjoined conditions—a rich country. At one hotel in Peace River, in one day, there were visitors registered from Brandon, Moose Jaw, Victoria, Sacramento, Los Angeles, San Francisco, New York and London. At Dunvegan Crossing I met camping with pack-horse, knife and gun, a picturesque stranger who was beguiling his long evenings with Angèle France's "Les Deux ont Soif." What was a man of such culture doing there? Prospecting and picking up good things, you bet your life.

And the people already settled are of the right stuff—downright, enterprising, sociable, "sports"; earnest in play as in work. Spirit River has just had a two days' sports meeting. The folk came in from as far afield as eighty miles in automobiles. There wasn't a bed to be had. Men walked the street all night. Others slept in their cars or on the unsophisticated floors of barns, offices and poolrooms. But a nothing daunted their zeal. After a boxing contest in the late evening, a dance followed until the small hours. The sports

Mr. Peace River.

events were numerous and dashing. Better racing was not to be seen at Edmonton. The boys' half mile horse-back spoke well for the rising generation. And ten years ago, recollect, this country was not surveyed, and a four-year world-war has intervened; yet today several towns of one thousand residents and upwards, with large contributory populations, one of them, at least, equipped with electric light plant and public waterworks are making history.

Nevertheless, as my friend the Cabinet Minister said, there is yet much to do. Roads need to be graded, trails improved, river transport increased. Most urgent of all, an improved and progressive railway service is needed.

That, indeed, is vital; for otherwise many of the settlers will drift out again; the fight is too unfair. I hear that the Canadian Pacific Railway has at length taken over the operation of the line. This will prove the surest pledge of Peace River prosperity, for the unimpaired prestige of this great transportation company, challenged as it now is by powerful rivals, will not allow of inefficiency.

But what I have seen makes me eager, and to public utility companies and intending settlers alike, I say—Make Hastel—D. C.

## Value of Alberta's 1920 Farming Operations

Conservative Estimate Places Total  
At \$191,920,297.

The total value of the farm products of Alberta during 1920 is placed at \$191,920,297 by the provincial statistician in a preliminary estimate. Of this total the wheat crop of 87,601,382 bushels on a basis of \$1.34 a bushel reaches \$116,291,075.90, being the crop from 4,074,483 acres, or an average yield of 21.50 bushels per acre. The 38,000 acres of winter wheat averaged twenty-four bushels per acre for the province.

The acreage in oats reached 3,089,700 and approximately 118,953,459 bushels of grain was harvested. This means a return of \$38,065,104 at an average price of thirty-two cents a bushel. Barley is estimated at 13,459,572 bushels from 480,000 acres, which at sixty cents a bushel means a revenue of \$8,075,743.20. The average yield of oats is given as 38.50 and barley twenty-eight bushels per acre. Flax was sown on 103,700 acres with an estimated yield of 855,525 bushels and an approximate valuation of \$1,283,287.50. Rye was a better crop with 160,960 acres planted and an estimated return of \$3,822,800 bushels, which at \$1.25 a bushel would produce \$4,778,500. Mixed grain on 8,398 acres are given as producing 278,238 bushels, or a return of \$129,119.

Alberta made a splendid record with potato production last season. 43,000 acres were planted giving an average estimated yield of one hundred and seventy-six bushels per acre and a total of 7,525,000 bushels for the province. Valued at a dollar per bushel the crop has helped materially in "carrying on" in agricultural circles and likewise in general finances of the province.

Other root crops gave satisfactory yields, producing approximately 3,075,000 bushels from 12,300 acres and giving an estimated revenue of \$3,690,000. Peas yielded about 49,283,185 bushels and beans 39,185 bushels for the year, or a return of \$123,207 and \$156,740 respectively. The hay and clover crop was not especially heavy on the whole, being given as \$24,462 tons from 403,433 acres, but the valuation reaches about \$10,489,240 according to the estimates. The grand total of acres in grain and field crops in the province for the year was 16,381,877 acres.

Supplementing the field returns for the year are the incomes from other sources on the farm and the forest. Animals slaughtered and sold are given as \$38,000,000, dairy products as \$34,000,000, the wool clip (1,740,239 lbs.) as \$730,899.98; proceeds from game and furs as \$2,250,000 poultry and products as \$5,000,000, and the returns from horticulture as \$2,285,000, making a grand total valuation for all farm products of \$274,186,197.08 for the year now closing. In addition to the revenue from the fields and kindred products, there are approximately 741,851 horses in the province with a valuation of \$66,766,590; over 305,607 milk cows valued at \$24,348,500; other cattle valued at \$52,516,700 to the number of 1,050,334; sheep and lambs numbering 383,424 with a value

of \$3,834,240; swine, with a valuation of \$7,731,120 for approximately 286,556 head, and no less than 2,309,855 head of poultry with a valuation of \$2,879,826. The total value of the livestock on the farms of Alberta is therefore about \$156,177,036 at the present time. Therefore an admittedly conservative estimate of the value of the farm production and of livestock on the farms reaches the magnificent grand total of \$430,363,233.08 for the past year.

## Productiveness of Siberia

Greater Wheat Area Than Canada, Argentine and United States.

Col. George H. Emerson, who was sent to Siberia during the war to operate the Trans-Siberian Railway, says that while Siberia, China and Manchuria are devoids and conducted on a sound basis the foreign trade of the Pacific coast will exceed that passing through American Atlantic ports.

He says: "The wheat-bearing soil tapped by the Trans-Siberian Railway is greater than the total acreage of the United States, Canada and the Argentine combined. Even during the war, when most of the men were at the front, Siberia, with a population of only 15 millions, produced nearly 400 million bushels of wheat. We lubricated our car and engine wheels with butter."

Ten thousand carloads of beans dumped at Harbin more than two years ago were still there at the commencement of this year, because no vessels or railroads were available to carry the beans to a market.

There is practically no market for butter, beef, hides, cheese and many other commodities which Siberia produces so bountifully."

## Oldest Woman Dead

Was the Daughter of a Full-Blooded Indian Chieftain.

Mrs. Sarah Freeman, said to be the oldest woman in Western Ontario, died at Woodstock recently at the age of 108 years and three months. She was born at Stockbridge, N.Y., during the war of 1812 between Canada and the U.S., the daughter of a full-blooded Indian chieftain and a mother who was half Indian and African. Her grand uncle was the famous Joseph Brant, in whose honor the city of Brantford was named, and she was related to E. Pauline Johnston, the late Indian poetess.

## Where Automobiles Go.

Two-thirds of all the cars sold in 1920 went to users in agricultural districts. More than half of all the cars went to towns of less than 5,000 people. The greatest recent increase in registration has been the south—Collier's.

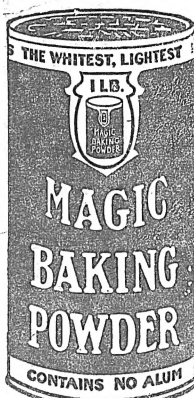

## Camouflage.

He—Let's kiss and make up.  
She—If you're careful I won't have to.

However strong a gale may be blowing not a breath of wind is felt by the occupants of a balloon.

## Lace Tree.

The lace-bark tree provides the women of Jamaica with ready-made lace, from which caps, bonnets, and nets are made. The inner bark of the tree is soaked in water and divided into separate layers. Each layer is stretched and spread in the sunshine. The application of water bleaches the lace. A tree that flourishes in the South Sea Islands produces fruit which, as a food, resembles very closely a newly-baked loaf. On account of this it is known as the bread tree.

## TAKE NOTICE

We publish simple straight testimonials from well known people, not press agents' interviews. From all over America they testify to the merits of MINARD'S LINIMENT, the best of Household Remedies.

MINARD'S LINIMENT CO., LTD.,  
Yarmouth, N.S.,  
Branch Factory, St. John's, Nfld.

Red Cross Society Remits 10,000.  
The Saskatchewan division of the Red Cross has remitted \$10,000 to Toronto as the first instalment in connection with the British Empire War Relief Campaign for the relief of destitute children and families in Central Europe.

Recommended By Their Record.—The very best advertising which is done for Parmenter's Vegetable Pills is that done voluntarily by those who have experienced the benefits of their use. Throughout Canada, many thousands of people recommend Parmenter's Vegetable Pills to their friends as one of the most reliable of all medicines for correcting disorders of the stomach, liver and bowels. To this fact is very largely attributed the enormous sale they enjoy everywhere.

The technological institute at Tomsk is the only higher institution of learning in all Siberia.

The ruby, weight for weight, is more valuable than the diamond.

## "I Cannot Go"

BILIOUS headache spoils many an expected enjoyment.

When the condition of the liver is neglected, biliousness seems to become chronic and recurs every two or three weeks, with severe sick headaches.

Why not get right after this trouble and end it by using Dr. Chase's Kidney-Liver Pills to restore the health and activity of the liver.

Constipation, indigestion, backache, headache, biliousness and kidney derangements are quickly cured with the use of this well-known medicine.

One pill a dose, 25 cts. a box, all dealers, or Edman's, Bate & Co., Ltd., Toronto.

Dr. Chase's  
Kidney-Liver Pills.

## NEW DIRECTORS OF THE BANK OF MONTREAL

SIR LOMER GOUIN.

GENERAL SIR ARTHUR CURRIE.

The enlargement of the directorate of the Bank of Montreal, which was decided upon at the recent annual meeting as a result of the extending scope of the institution, has resulted in two gentlemen of national reputation being added to the board, namely, the Hon. Sir Lomer Gouin, K.C.M.G., and General Sir Arthur Currie, G.C.M.G., K.C.B., L.L.D.

Sir Lomer Gouin only recently retired from the position of Premier of the province of Quebec. He had held this position for fifteen years. He was born at Grouville on March 19, 1862, his father being M. Gouin, M.D., a well-known local practitioner. His mother's maiden name was Farigier. He was called to the Bar in 1884 and advanced rapidly in his profession.

In the intervals of a busy professional career, he found time to contribute to the legal literature of the province of Quebec two valuable volumes which are regarded as standard authorities. The first of these was a book on the Quebec Municipal Code, with annotations; the second a work on commercial partnership and joint stock companies.

He was appointed an officer of the Legion of Honor in 1907, and was knighted at the Quebec Tercentenary on the occasion of the visit of the Prince of Wales, now King George. He was present by invitation at the Coronation of King George and Queen Mary in Westminster Abbey in June, 1911.

Sir Arthur Currie, who achieved fame as the Commander of the Canadian Corps in France during the latter part of the war, is now the principal of McGill University. He was born in Napier, Ontario, on December 5th, 1875. When a lad of eighteen he went to British Columbia and there, till he found his way to more remunerative occupations, he taught school for several terms. He graduated at the Strathroy Collegiate Institute in 1894.

His military training he found the thorough training he there received of inestimable value in the business life he afterwards took up. When the war broke out he at once offered his services to his country. He was an unranked lieutenant-colonel but his worth was speedily recognized at Valcartier when raw material was being welded into fighting men, and he shortly found himself in command of the 2nd Brigade.

In the famous second battle of Ypres when the French fell to the Canadian troops the honor of saving the entire British line, Brigadier-General Currie first showed the world of what fighting stuff he was made. To stiffen a fighting line against dreadful odds was his task that day. The Canadians had to meet at Ypres that first terrible surprise gas attack. The men had no gas masks, of course. The forced retirement of the French had left the Canadian flank unprotected and enfiladed. But it was a case of saving the Channel ports, and the Dominion troops held their ground.

When General Alderson was promoted from the First Canadian Division to the command of the Canadian Corps in September, 1915, Major-General Currie succeeded to the command of the First Canadian Division. His success in this position was recognized by the fact that in the King's birthday honors of June, 1917, the name of Major-General Currie figured as one upon whom His Majesty had been pleased to confer the K.C.M.G. Later in the same month Sir Arthur Currie succeeded Sir Julian Byng as commander of the Canadian Corps.

On the day following his appointment at McGill he was given a public banquet by the officers who served under him in France, and was presented with a handsome sword of honor and an illuminated address as "a token of their regard and deep admiration for his magnificent services to Canada and the Empire in the Great War."

## Ontario's Population

Statistics Show That Population Now Nears Three Millions.

Statistics for the province of Ontario estimate the population for 1919 as 2,837,425, an increase of 1.4 per cent. over that for the preceding year. The cities have 39 per cent, the towns 5.2 per cent, and the rural municipalities 55.7 per cent of the population.

The Ontario births showed a decrease of 1955, even though numbering 62,774. There were nearly 6,000 more female than male births. The number of deaths registered in 1919 was 34,010 which is 9,028 fewer than the preceding year. The ratio per 1,000 population has fallen from 15.3 in 1918 to 11.9 in 1919 for Ontario.

Minard's Liniment For Diphtheria.

## Keeping Road Open.

The Hamilton-Toronto highway commission, which controls the beautiful stretch of road, one of Ontario's finest driveways, has tried out motor snow-plows to clear the roads. A moderate sized plow is attached to the front of a powerful truck with good results. Motorists will use the road all winter.

## \$100 Reward, \$100

Catarh is a local disease greatly influenced by constitutional conditions. It therefore requires constitutional treatment. HALL'S CATARRH MEDICINE is taken internally and acts through the blood on the mucous surfaces of the system. HALL'S CATARRH MEDICINE destroys the foundation of the disease, gives the patient strength by improving general health and assists nature in doing its work. \$100.00 for a case of Catarrh of the HALL'S CATARRH MEDICINE fails to cure. Druggists & Chemists, Toronto, Ohio.

Many a man is compelled to take married life according to directions.

There are over a hundred varieties of holly.

## The Best Accident Insurance

—the one adopted generally in Canadian homes, is the policy of keeping Zam-Buk always handy. Zam-Buk ensures quick healing in cuts, burns, scalds, colds, and all injuries and skin troubles. It promptly ends pain, irritation and inflammation; it purifies the tissues; prevents blood-poison and ulceration. Its ever-ready herid character and powerful antiseptic properties make Zam-Buk the safest and best healer ever discovered.

Miss Helle Grant, Brazil Lake, N.S., says:—"Cold got into my burnt hand, and I began to feel four bad pains. I hadn't used Zam-Buk long before it took out all pain, soreness and inflammation." Mr. Jonathan Beaton, of Helle, Alta., writes:—"With the threshing outfit last fall, many high accident happened, cuts, bruises, frost bites, etc., for which we found nothing so good as Zam-Buk. There's nothing like it." Children, colds, and skin sores, etc., are generally cured with Zam-Buk. It is of druggists and stores; a box, 3 for \$1.25. In 10c tins, 50c for 50c sample from Zam-Buk Co., Dupont Street, Toronto.

## Wells of Abraham

Modern Pumping Machinery Now Used in Well Dug by Abraham.

Abraham's wells are now equipped with modern pumping machinery and are supplying water to the town.

According to ancient tradition, there were seven wells at Beersheba, but at present only three are known, which from time immemorial have been used by the Bedouins to water their flocks. The original "Well of the Oath" was dug by Abraham, as described in the Book of Genesis.

## End Your CATARRH To-Day

Catarrh sufferers, meaning those with colds, sore throat, bronchial trouble, etc., can all be relieved right at home by inhaling "Catarrhazone." In using Catarrhazone you don't take medicine into the stomach—you just breathe a healing piney vapor direct to the lungs and air passages. The purest balsams and the greatest antiseptics are thus sent to every spot where catarrhal trouble exists—germs are killed, foul secretions are destroyed, nature is given a chance and relief comes quickly.

Colds and throat troubles can't last if the pure healing vapor of Catarrhazone is used. It soothes, soothes, and coughing cease at once, because irritation is removed.

Use Catarrhazone to prevent—use it to relieve your winter ills—it's pleasant, safe and guaranteed in every case.

## Had His Ups and Downs

K.C.'s Last Job Was Running a Freight Elevator.

Running a freight elevator in a Vancouver office building was the last job held by John Reeves, K.C., who died there recently. The late Mr. Reeves, once a leader at the Ontario bar, member of an old Upper Canadian family, was born sixty-nine years ago. He was a life-long friend of the Chief Justice Falconbridge and an associate of the late Sir William Mulock. He was associated one way or another with most of the big men Ontario produced since Confederation.

In his little room, near the elevator, Mr. Reeves used to entertain, between shifts, members of the provincial judiciary and other leading legal lights.

To enquirers Mr. Reeves always said: "Hard luck is not to come to anyone. My lot is not a difficult one."

"I lost my money in a venture in New Zealand," he stated, "and I am too old to go back to practice and start at the bottom again. I enjoy work and this elevator suits me."

The land crab of Cuba has more speed than the horse.

## World Happenings Briefly Told

Thirty-seven were killed and about 200 wounded in the fighting to capture Fiume.

The Bolsheviks have shot 13,000 persons in the Crimea, according to the latest reports from Russia.

Thirty-three autograph letters, addressed to Gen. Monkton by Gen. Wolfe, will be sold by auction in London, in February.

A month's experiment with an aerial mail service between Camp Borden and Toronto has been begun by Lt. A. E. McLorie for the postmaster-general.

Two hundred and fourteen persons lost their lives when the Spanish steamer Santa Isabel was wrecked near Villa Garcia recently. Fifty-six persons were saved.

H. Milton Martin, Belgian consul agent for Northern Alberta, has been appointed Belgian consul for the provinces. His former territory consisted of Northern Alberta only.

British Columbia lumber exports by water for 1920 are estimated at over 120,000,000 feet. Shipments were made to Australia, the Orient, India, United Kingdom and South America.

Customs receipts at Edmonton were higher for the calendar year just ended than in any year since the beginning of the war. They totalled \$1,712,704 as against \$1,181,937 for 1919.

The military raided the convent of Carmelite Nuns at Ranelagh, a suburb of Dublin. They forced the doors and made an exhaustive investigation into all the rooms in their search for letters and documents.

Civil servants in the employ of the Ontario Government are dissatisfied because of a recent regulation prohibiting them from accepting outside employment. They will ask the government to receive a deputation to discuss the matter.

A scheme for a teachers' pension fund has been approved by the Central School Commissioners, Montreal. Teachers will pay one per cent, on salary monthly and the school commission will pay in a like amount to the fund.

During the last year 141 earthquakes have been recorded upon the delicate seismographs installed in the Geological observatory at Victoria, B.C. This is the greatest annual number recorded since 1899 when the first seismograph was set up.

Laura Abbott, aged four years, of the Ingebricht district, Swift Current, died at the General Hospital, Swift Current, when she received when she poured gasoline over a bonfire. The children were alone in the house at the time the little girl used the gasoline.

Minard's Liniment For Garget in Cows.

It's no trouble for a man to brag of his good judgment when he makes a good guess.

## WELL SATISFIED WITH BABY'S OWN TABLETS

Mrs. Emile Malette, Montpelier, Que., writes:—"I have used Baby's Own Tablets for some time and am well satisfied with them. They are really the best medicine I know of for little ones." What Mrs. Malette says thousands of other mothers say. Once they have used the Tablets for their children they would use nothing else. The Tablets are a mild but thorough laxative; are absolutely free from opiates, narcotics or other harmful drugs and may be given to the youngest baby with perfect safety and good results. They are sold by medicine dealers, or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

## Queer Facts About Plants.

"When plants die they give off a large amount of electricity. If 500 peas boiling in a pot all died at the same moment they would give a current sufficient to electrify the cook," said Sir J. C. Bose in a lecture on growth of plants to the students of University College, London, recently. You can decieve a blue plant with chloroform, he said. Usually it sleeps in winter and blossoms in the spring, but if given a dose of chloroform in winter it blossoms on awaking from the chloroform sleep.

## Says Conditions Will Improve.

In a message to the Vancouver World, J. S. McKinnon, Toronto, of the Canadian Manufacturers' Association, said that if Canadians stand shoulder to shoulder as they did in the war, and maintain an optimistic outlook, present trade conditions will materially improve during the next few months.

It takes a joint of beef to make a Bottle of Bovril.

AGENTS WANTED: BLISS NATIVE HERBS is a remedy for the relief of Constipation, Indigestion, Biliousness, Rheumatism, Kidney Troubles, etc. It is well-known, having been extensively advertised, and it was first manufactured in 1885, by distillation of large quantities of Almanac, Cook Books, Health pills, which are furnished to agents free of charge. The remedies are sold at a price that allows agents to double their money. Write Alonzo O. Bliss, 124 St. Paul Street East, Montreal, Canada. Mention this paper.

## Cook's Cotton Root Compound

A safe, reliable remedy for Coughs, Colds, Whooping Cough, Sore Throat, Bronchitis, Asthma, etc. It is sold by all druggists, or by mail at 25 cents a box. Write for a sample. Address THE COOK MEDICINE CO., 1200 N. 1st St., (Phone 1010) St. Paul, Minn.

## German Commander's New Year Message

Hopes New Army Will Rival Old One in Efficiency.

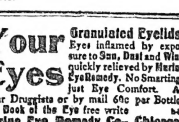

In his New Year's message to the army, Major-General Von Seeckt, the German commander-in-chief, refers to the necessity of the soldiers developing themselves wholly to their calling. "We will keep our sword sharp and our shield unarmoured," says the message. "Inspired by such a true conception of honor and of patriotism and by this feeling of responsibility for the arms will be able to rival the old one in efficiency."

## Bar Movies of Criminals.

Motion pictures portraying criminals at work have been barred in Chicago. Chief of Police Fitzmorris announced that three weeks ago he had issued orders to movie censors not to issue permits for any photograph that showed a crime committed, even though the end of the picture might show the criminal in a prison cell.

Asthma Is Torture. No one who hasn't gasped for breath in the power of asthma knows what suffering is. Many do know, however, from experience how immeasurable is the relief provided by that preparation, Dr. J. D. Kellogg's Asthma Remedy. For years it has been relieving the most severe cases. If you are a sufferer do not delay a day in securing this remedy from your druggist.

The wrongs of our people are continually getting mixed up with our rights.

## Fur Coats at COST

The weather has been mild. We have too many Fur Coats. These coats have to be sacrificed as we have to have the money to purchase Spring Good. LOOK!

Men's Black Australian Beaver Fur Coats, one size 44, two size 46, priced at \$65.00. Reduced to \$49.50

### Farmers Require Fire Protection

Farm homes should be provided with fire protection, in the form of extinguishers or water pails. When a fire breaks out the farmer cannot call in the services of an organized fire department, and the water supply is usually scanty; assistance can therefore, only be concentrated on endeavouring to save the contents of the buildings.

Fire extinguishers of many designs and qualities are available. The soda-acid type however, is recommended. This must be kept from freezing, but it is the most satisfactory and serviceable. Dry powder extinguishers are not reliable. The National Fire Protection Association circular on this subject says:—

"In view of the fact that several so-called fire extinguishers, consisting generally of sheet metal filled with mixtures of bicarbonate of soda and material in powdered form, have been widely advertised as suitable for use for fire extinguishing purposes, this committee has to report that in its opinion all forms of dry powder fire extinguishers are inferior for general use, that attempts to extinguish fires with them may cause delay in the use of water and other approved extinguishing agents, and therefore their introduction should not be encouraged."

A few pails, kept for fire purposes only, and always filled with water, should be on hand. It is generally admitted that most fires are extinguished by pails of water than by all other means combined. To overcome freezing of the water where the pails are kept in stables or outbuildings, calcium chloride, in the proportion of five pounds to the gallon of water will depress the freezing point to 40 degrees Fahrenheit below zero.

When fire protection is required it is needed badly. A little precaution against fire may save the farmer and his family being turned out of his home some intensely cold night this winter.

### Collinholme Council

The Council of the M.D. of Collinholme met on Saturday, Dec. 4th. All the members present. Minutes of last meeting read and adopted.

Then followed the reading of the correspondence and of the bills presented for payment.

Falconer: That the Secretary be instructed for and in the name of the Municipal District of Collinholme to take all the necessary proceedings to complete the arbitration of certain lands required for the opening of the blind line as provided for in Resolution No. 100 of the meeting of May 15.

The report of the Finance Committee was accepted and a number of accounts were recommended paid.

Harrington: That the claim of R. Dobson re destruction of weeds on N.E. 16-28 7 be tabled until next meeting, and that L. A. Smith, weed inspector, be again requested to be present.

Hittle: That the Council have no objection to Mrs. Plater fencing the road allowance east of N.E. 7-27 7, provided suitable gates are placed thereon.

Marr: That in paying for land taken for road allowance from O. Rudy and L. Johnson, interest be allowed from the time the land was taken.

Falconer: That having received a petition for another bank in Chinook, this petition being signed by a large number of the ratepayers tributary to this town, the Secretary be instructed to do what he can towards urging another bank to locate here as soon as possible.

Hittle: That permission be given to L. K. Sully to get an advance of 68c a bushel on his car of wheat shipped through the National Elevator, Chinook, for the purpose of paying threshing and other bills in connection therewith, providing he gives to the M.D. of Collinholme a bill of sale of this wheat in settlement of his Seed Grain indebtedness to the municipality.

Falconer: That having received from J. H. Gustafson, a bill of sale of his wheat now in store in the United Grain Growers Elevator, Chinook, that in order to save Mr. Gustafson from having his wheat seized and sold at present prices in payment of his account for threshing, the Municipality guarantee to pay to R. Marr, the amount due him for threshing, the \$300 paid into the Bank by Mr. Gustafson to be turned over to Mr. Marr at once and the balance when this wheat is sold.

Hittle: That C. Rosenberg be given some relief, proving his right to the Municipality a bill of sale of the wheat he has now in store at Chinook.

The following relief was granted to A. C. Andersen, Charles Rosenberg and A. E. Mannien Hittle: That Council accept preliminary agreement for road diversion near the north west corner of the N.W. 15-27-7, W-4 owned by W. T. Sullivan, price \$20 per acre, \$25 32 to be paid now to pay arrears of taxes on this land, and the balance to be paid when survey has been made and registered.

Kivich: That if at any time in the opinion of the Secretary, legal action is considered necessary to protect the interests of the Municipality, with regard to any matter connected with the advances made by the municipality for seed and feed grain and for relief, and such matter is in his opinion of two urgent a nature to be left until the next meeting of the Council, he shall be and he is hereby authorized for and in the name of the municipality to represent the municipality in such legal action, and this shall be considered his full and complete authority so to do.

Falconer: That the Sec'y shall be instructed to arrange for an auctioneer for the Tax Sale, and shall purchase for and in the name and on behalf of the Municipal District all parcels of land offered for sale that are not sold for a sum sufficient to pay the municipality the amount of its claim against such lands.

J. M. Prossler, of Vancouver, who killed himself in Lethbridge on Jan. 3, over a love affair, is believed from the description given of him that he is the J. N. Prossler who was in Chinook and Central about a month ago, where he is alleged to have passed several forged cheques.

FOR SALE—A dwelling house 16x24 with shed, six rooms. Apply M. J. Hewitt, Chinook.

## Chinook U.F.A.

The regular literary meeting of the Chinook Local U.F.A. took place in the School on Friday evening, at which a good time was enjoyed by a large number of members and their friends. It was decided to send a full quota of delegate to the Annual Convention held at Edmonton on January 18-21.

Messrs. Neff and Stephenson have been chosen to represent Chinook in a return debate with Excel Local.

The next meeting of the U.F.A. is to be at Laughlin on the 14th; and again in Chinook on the 21. On Friday, Feb. 4, there is to be a pie social at Chinook.

### Curling Notes

We are informed that "Steve" the local U.F.A. editor, reported that we enjoyed our walk from Dobson. We did, but not half so much as we enjoyed that game of curling the other night when "Steve" beat Lees.

The Curling rink met their Waterloo the other night when they came up against a very promising rink skipped by Harry Smith.

A rink skipped by J. R. Miller left town on Monday to take part in the Rosetown Bonspiel and expect to bring back some of the "jewelry". The following is a personnel of the rink:

R. Vanhook  
M. L. Chapman  
G. Harper, Youngstown  
J. R. Miller—skip

Mr. Miller's rink was "snowed under" on Monday night when they came up against the President's rink.

### Chinook Picture House

Jan. 14, "Thou Art the Man," featuring Robert Wallace. A thrilling story of diamond smuggling in the Kimberley diamond mines. Also a Mac Donnell comedy.

Jan. 21, "Male and Female," the dramas shown before this have all been the ordinary run of films, and cost \$25 for the evening, except the one last Friday which cost \$40. The drama "Male and Female" belongs to the super special class and costs \$60 for one evening. This for the best film secured by the management. When shown in Winnipeg this drama caused quite a sensation and received special mention in the press.

The Annual Meeting of the Alberta Division of the Canadian Red Cross Society will be held in Edmonton on Friday, Jan. 21. Arrangements will be made for a joint session between the Red Cross and U.F.W.A. Convention.

Just arrived a car of King Quality Flour and Rolled Oats. Get our prices. Car of Seed Oats arriving in a few days. Leave your order.—The United Grain Growers.

Crocus Lodge, No. U.D.G.R.A. A.F. & A.M.

Meets at 8 p.m. the Wednesday or after the full moon.

Visiting brethren cordially welcomed.
